Technical Skills

FRONTEND

- React.js
- Next.js
- React Native
- Tailwind CSS

BACKEND

- Node.js
- Express.js
- REST APIs

PROGRAMMING

- JavaScript (ES6+)
- TypeScript

DATABASE

- PostgreSQL
- MongoDB
- Prisma ORM

TOOLS

- Git
- GitHub
- Postman

Focus Areas

- SaaS Development
- Healthcare Systems
- Payroll Solutions
- REST APIs

Profile

Full Stack Software Engineer with experience in building scalable web and mobile applications using React.js, Next.js, React Native, Node.js, TypeScript, Prisma ORM, and PostgreSQL. Currently developing **Medicore**, a multi-tenant Hospital Management SaaS platform featuring role-based access control, pharmacy management, billing, and analytics. Passionate about building modern software solutions with clean architecture and exceptional user experiences.

Education

Bachelor of Science in Computer Science (Ongoing) 2023 – Present
University of Education Lahore (Faisalabad Campus)

Professional Experience

Full Stack Developer Apr 2025 – Oct 2025
Techloset Solution

- Contributed to the development of the Techloset My Profile application for Web and Mobile platforms.
- Developed and maintained Employee Profile features using React.js, Next.js, and React Native.
- Developed and enhanced the Payroll Management module, including salary calculations, attendance-based payroll processing, and payment workflows.
- Developed Admin Portal modules for employee management, payroll workflows, and business operations.
- Integrated frontend with backend REST APIs to ensure seamless data flow.
- Built reusable UI components for the Tracker System.
- Collaborated with cross-functional teams using Git, GitHub, and Agile development practices.

Internship Experience

MERN Stack Developer Intern Jan 2025 – Apr 2025
Techloset Solution

- Developed responsive web applications using React.js and JavaScript.
- Built REST APIs using Node.js and Express.js.
- Implemented CRUD operations with MongoDB.
- Integrated frontend with backend APIs.
- Implemented JWT-based authentication and authorization.
- Collaborated with the team using Git and GitHub.

Projects

Medicore – Multi-Tenant Hospital Management System
Full Stack | Next.js • React • TypeScript • Node.js • Express.js • Prisma ORM • PostgreSQL

- Designed and developing a scalable multi-tenant Hospital Management SaaS platform supporting multiple hospitals through a centralized architecture.
- Implemented role-based access control for Super Admin, Hospital Admin, Doctors, Receptionists, and Pharmacy users.
- Built patient registration, appointment scheduling, doctor management, and token-based consultation workflows.
- Developed Internal and External Pharmacy modules with medicine inventory, stock management, and dispensing workflows.
- Implemented billing, invoice generation, reports, and analytics dashboards.
- Designed secure REST APIs and optimized database architecture using Prisma ORM and PostgreSQL.
- Built responsive dashboards with reusable components using Next.js, React, TypeScript, and Tailwind CSS.
